

OCTOPi
SMART SOLUTIONS

COMPANY PROFILE

WHO ARE WE?

We can be defined by one sentence...

OCTOPi Smart Solutions provides service solutions, with a sales support team.

OCTOPi Smart Solutions considers itself to be a business partner to all its customers, large and small. Our Annuity-based approach implies that we are committed to the long-term success of a growing relationship.

OUR VISION, MISSION & VALUES

What we stand for...

VISION

At OCTOPi Smart Solutions, our vision is to revolutionise businesses through technology, setting the standard for excellence, innovation, and sustainability in our industry

MISSION

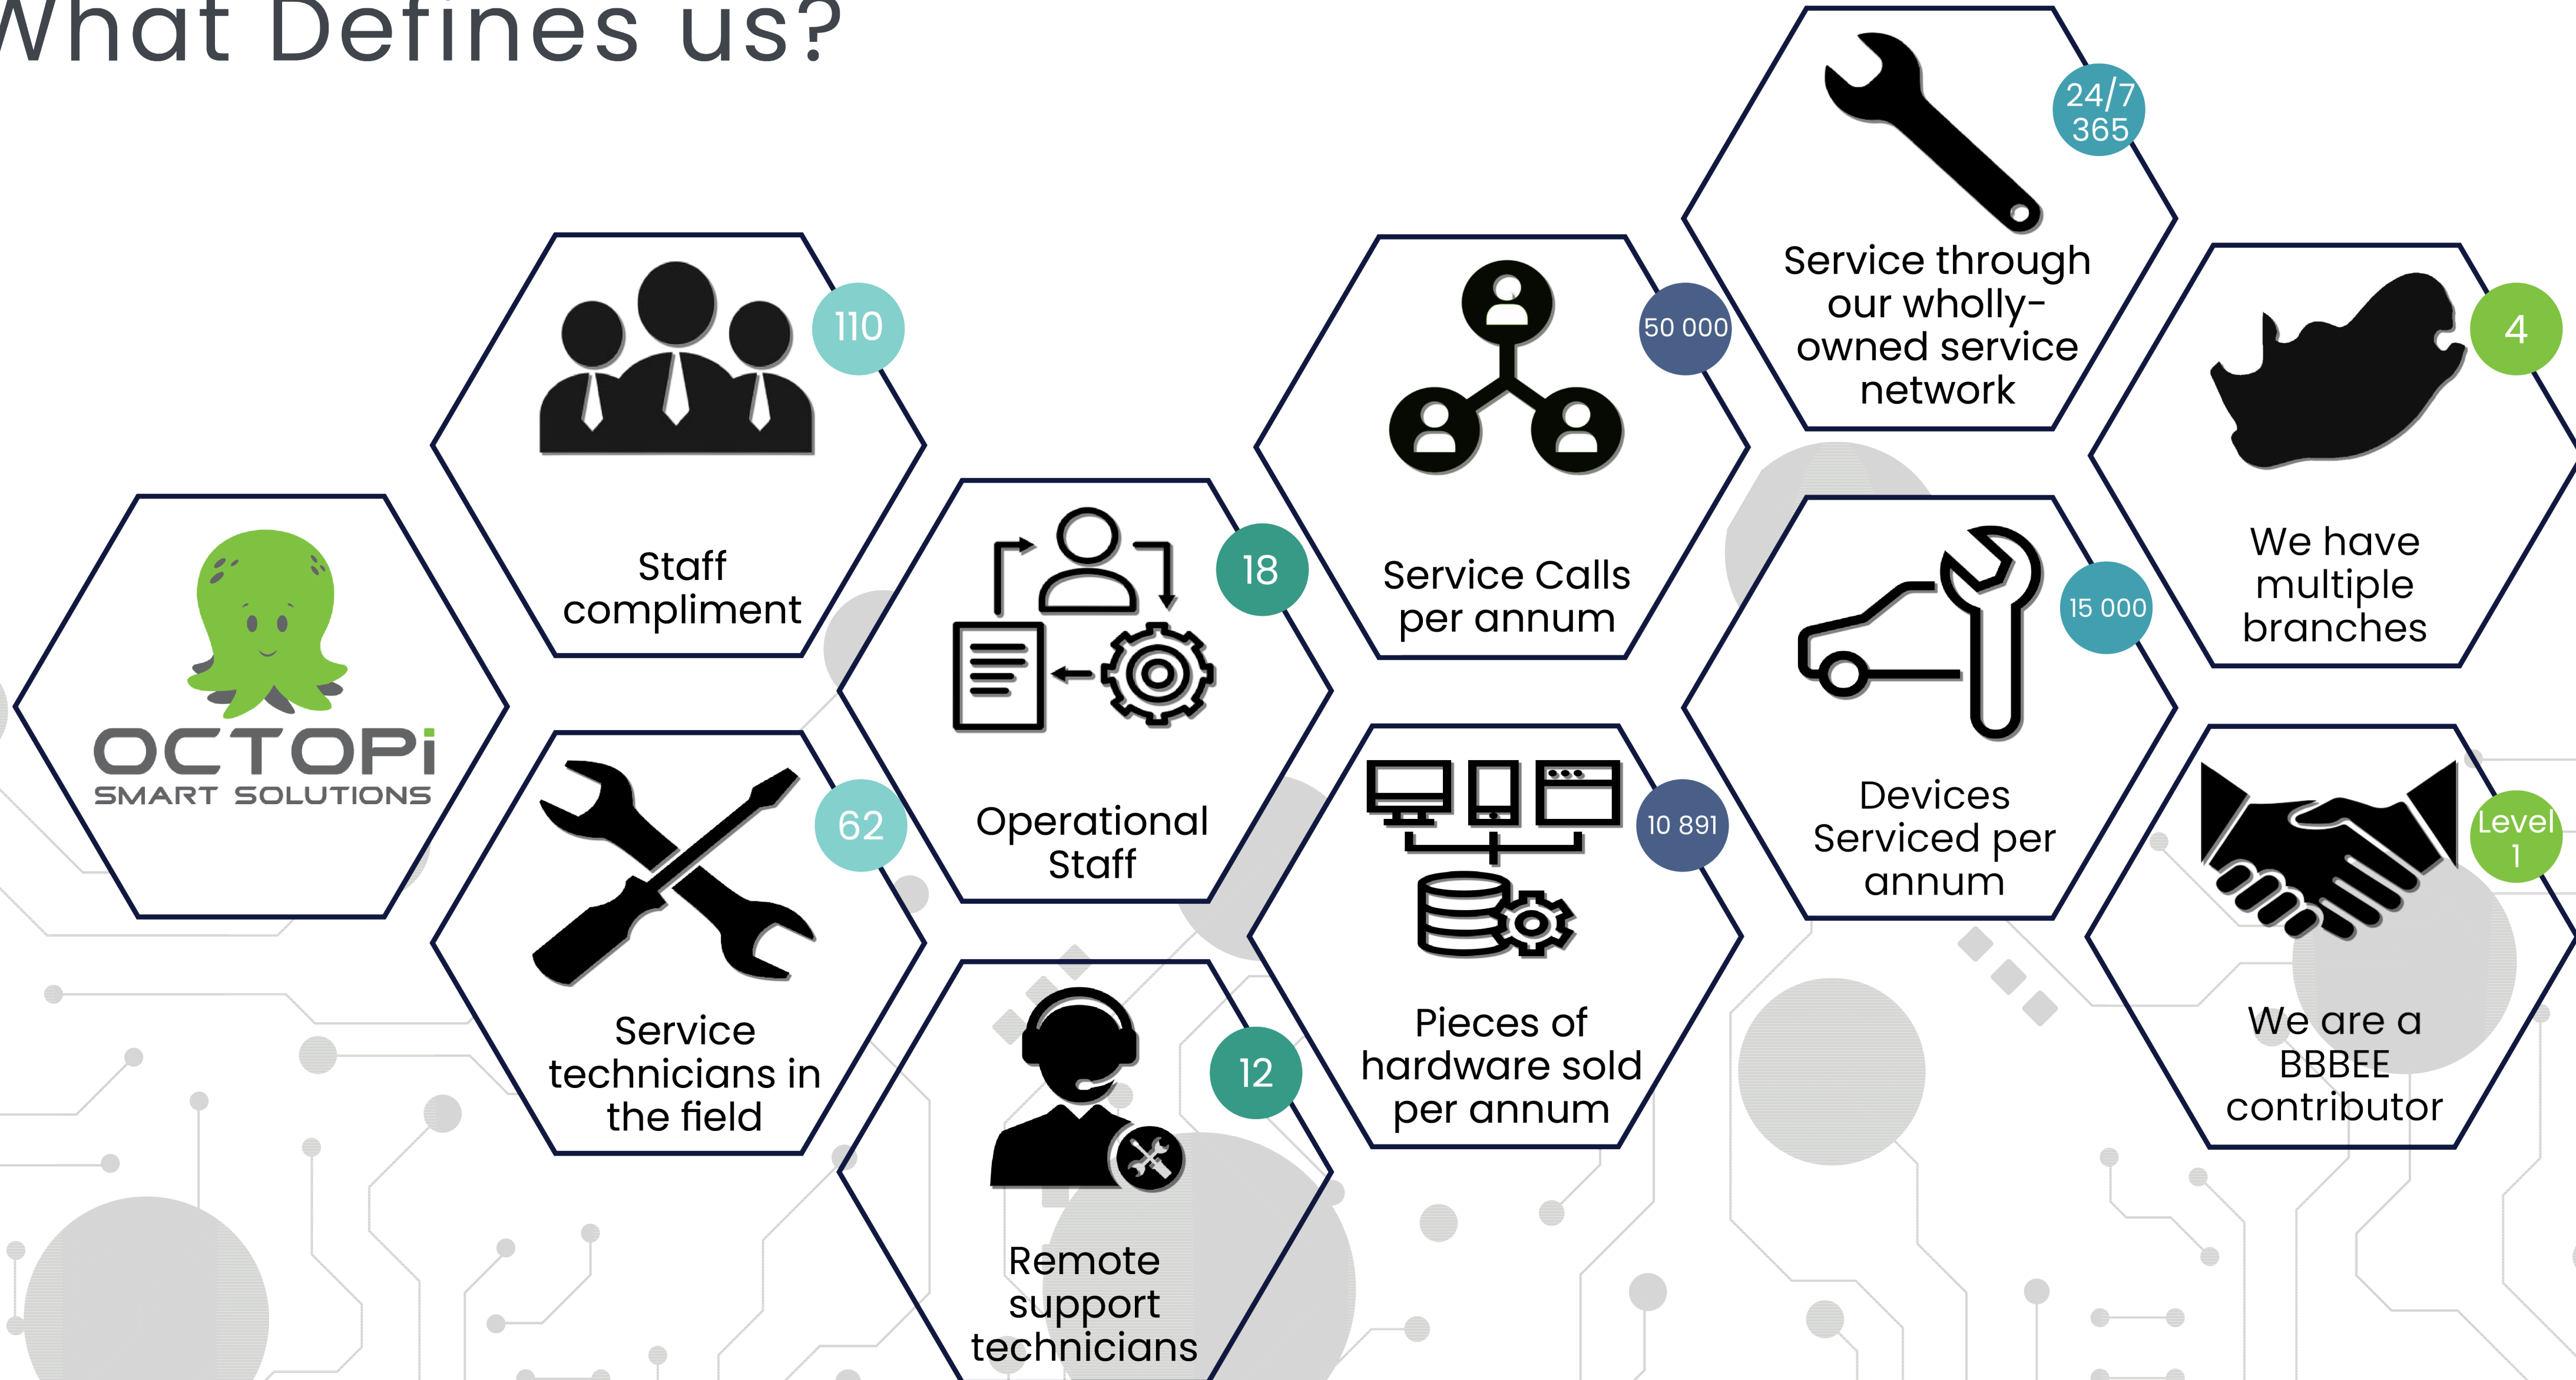

At OCTOPi Smart Solutions, our mission is to empower businesses with comprehensive and innovative Print, Telecoms, Security, Data, Voice, and Network solutions. We are dedicated to delivering end-to-end services that not only meet but exceed our clients' needs and expectations.

VALUES

We value the long-term relationships that we have built and invested in over the years and prioritise the highest level of customer service.

-  FINANCE

INFRASTRUCTURE

Octopi Smart Solutions provides comprehensive IT Infrastructure solutions to ensure that your company can maintain and improve productivity and efficiency in terms of hardware, software, and networking solutions in the workplace. This includes solutions for configuring and maintaining Local Area Networks (LAN), Wireless Access Networks (WAN), managed Wi-Fi access, CCTV, and Access Control to provide a comprehensive solution for your business.

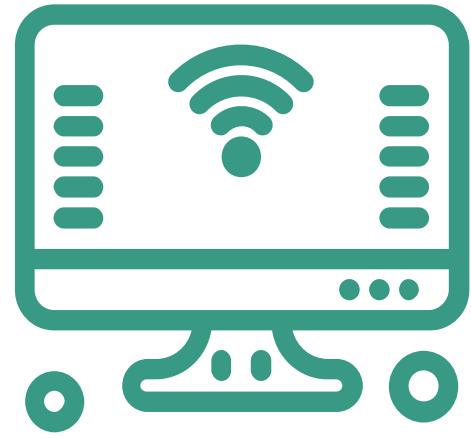

Data Centres / Service Rooms

Data Cabling

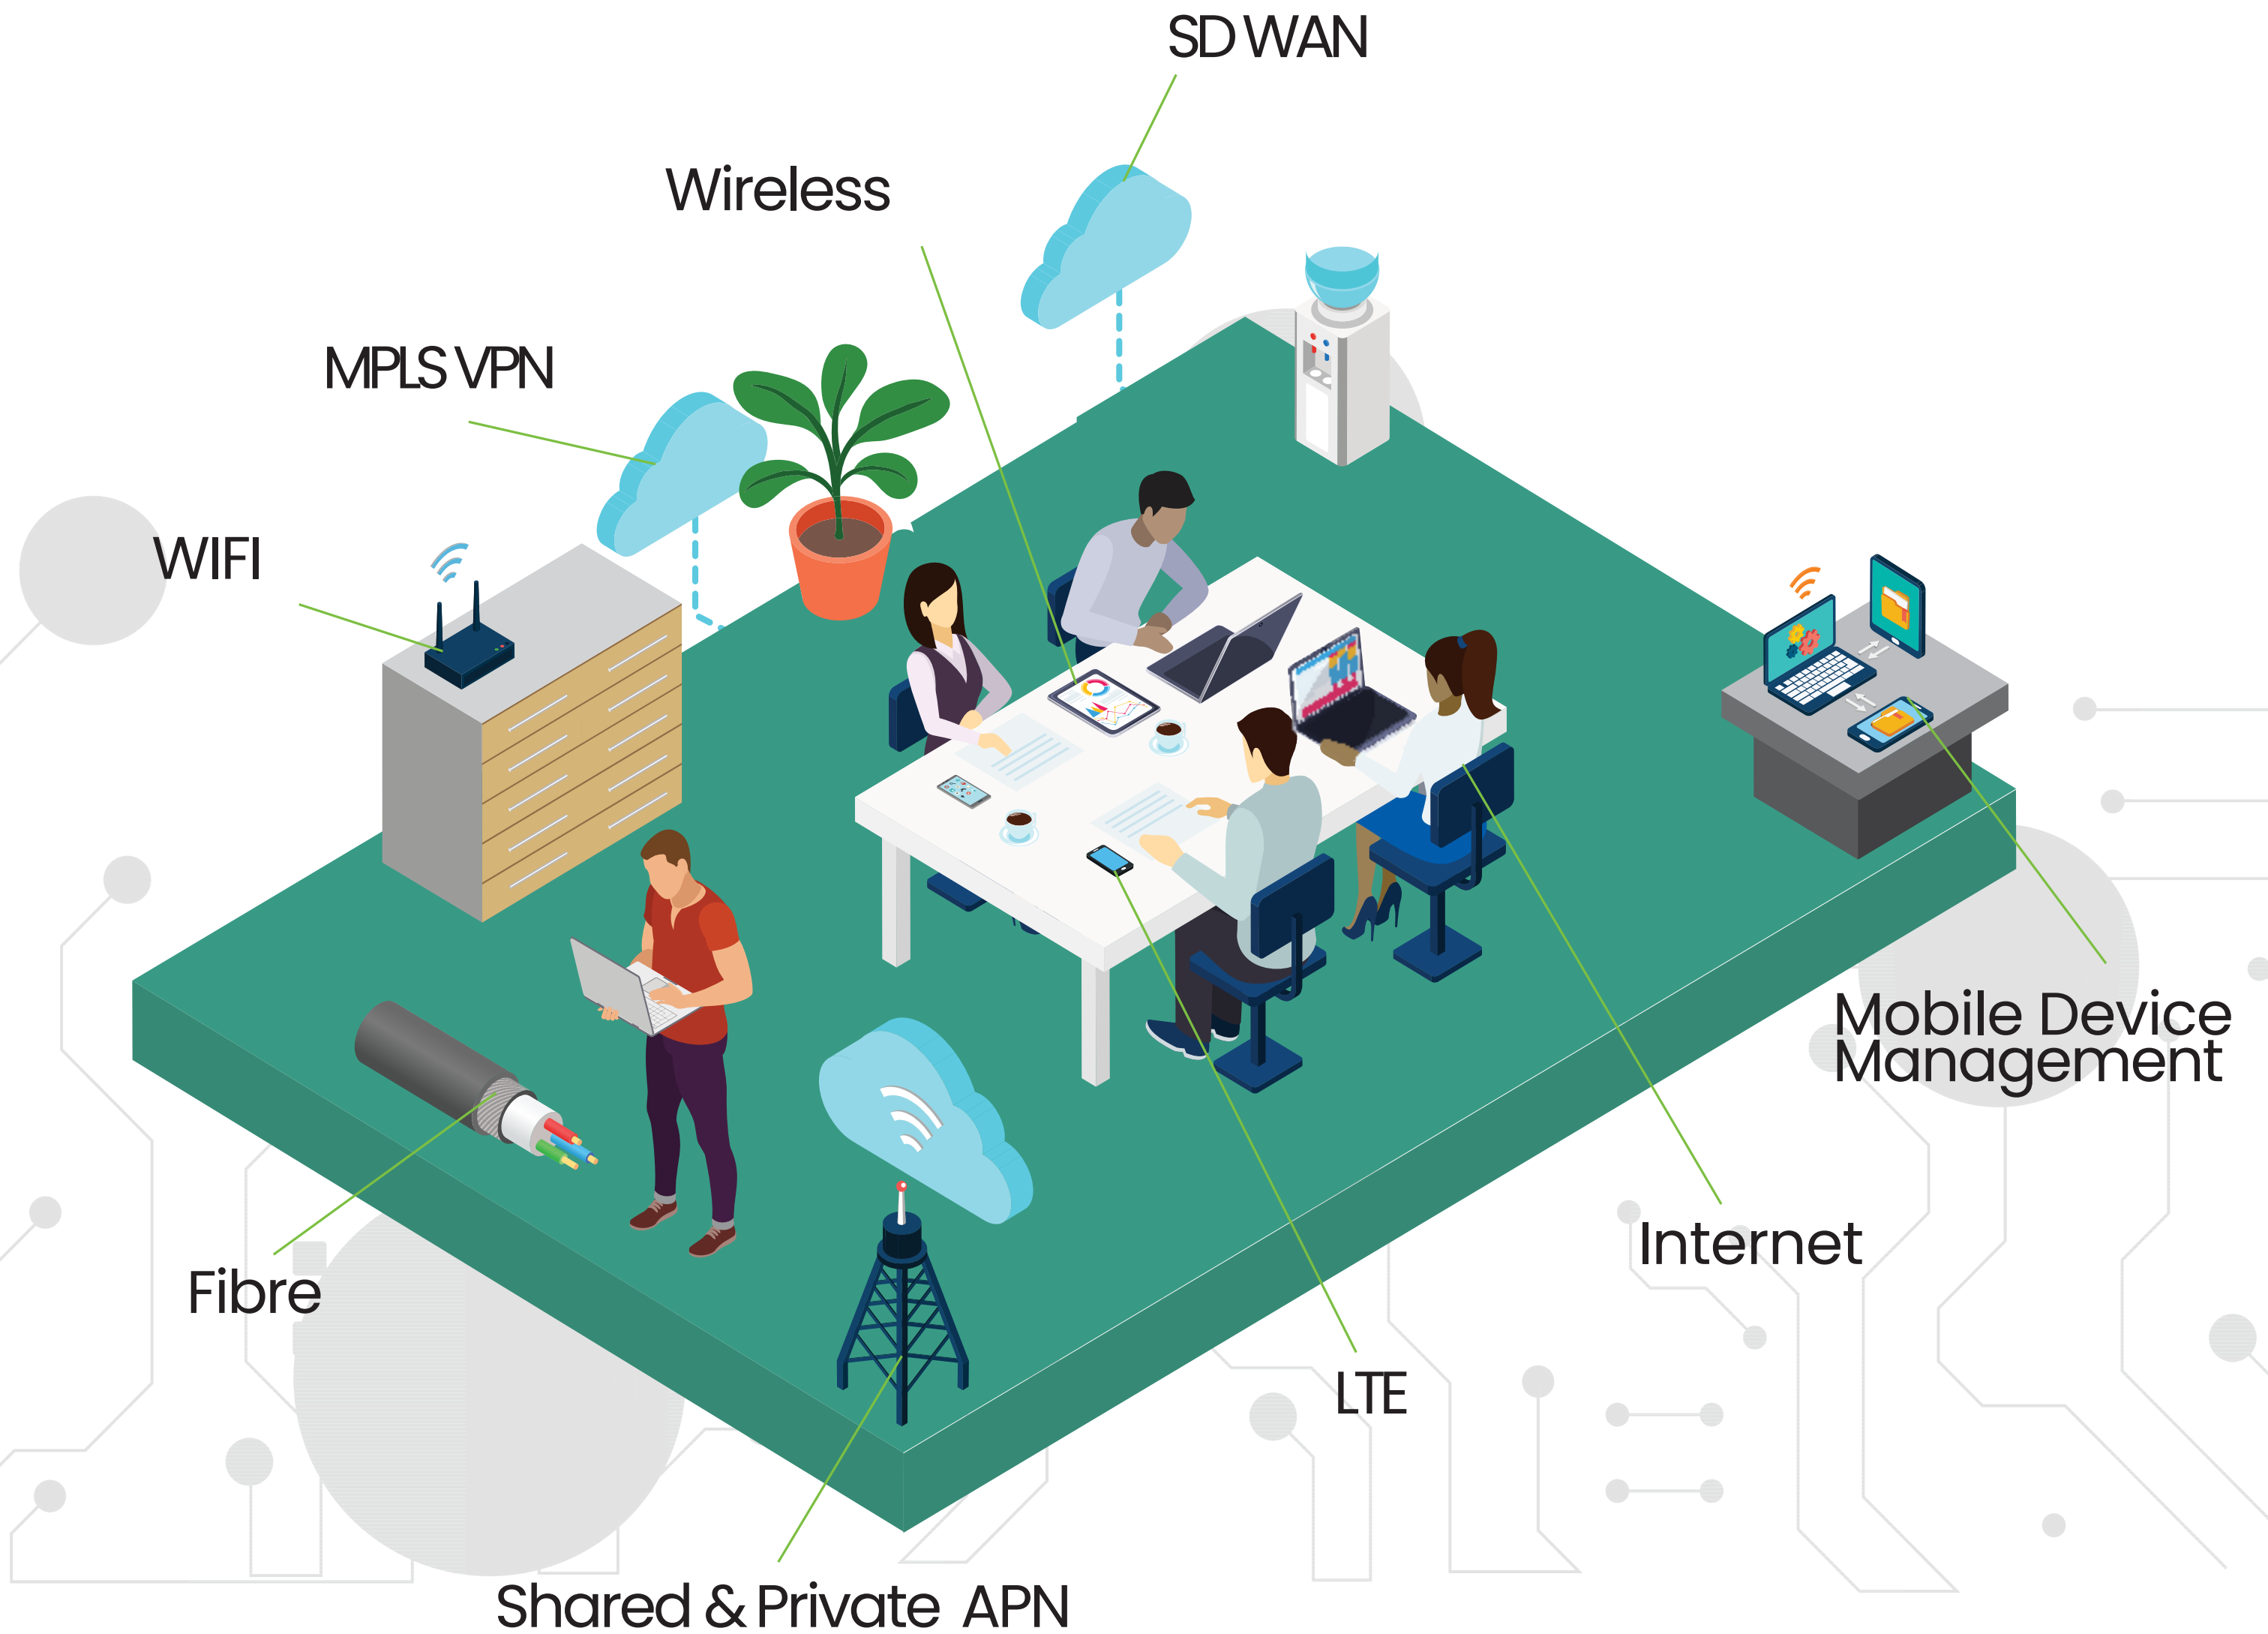

Fibre Optic Cabling

Air Conditioning / CRACUnits

CONNECTIVITY

When it comes to internet access and connectivity for your business, Octopi Smart Solutions has you covered. We can provide tailored solutions that are tailored to your company's specific needs, while also offering more cost-effective approaches to data usage and network costs. To ensure a stable and reliable connection, we offer high-speed fibre connectivity as well as wireless solutions. We can also help with shared and private APN solutions to support remote working and keep your employees connected - even when they work from home.

INFORMATION TECHNOLOGY

The field of technology known as Information Technology is formed by the development, management, and implementation of networks, software, and computer systems for the processing and transfer of data. Our flexible and welcoming support allows you to concentrate on the core aspects of your business while we take care of your IT infrastructure, including endpoints (Laptops and PCs), servers, and backup solutions.

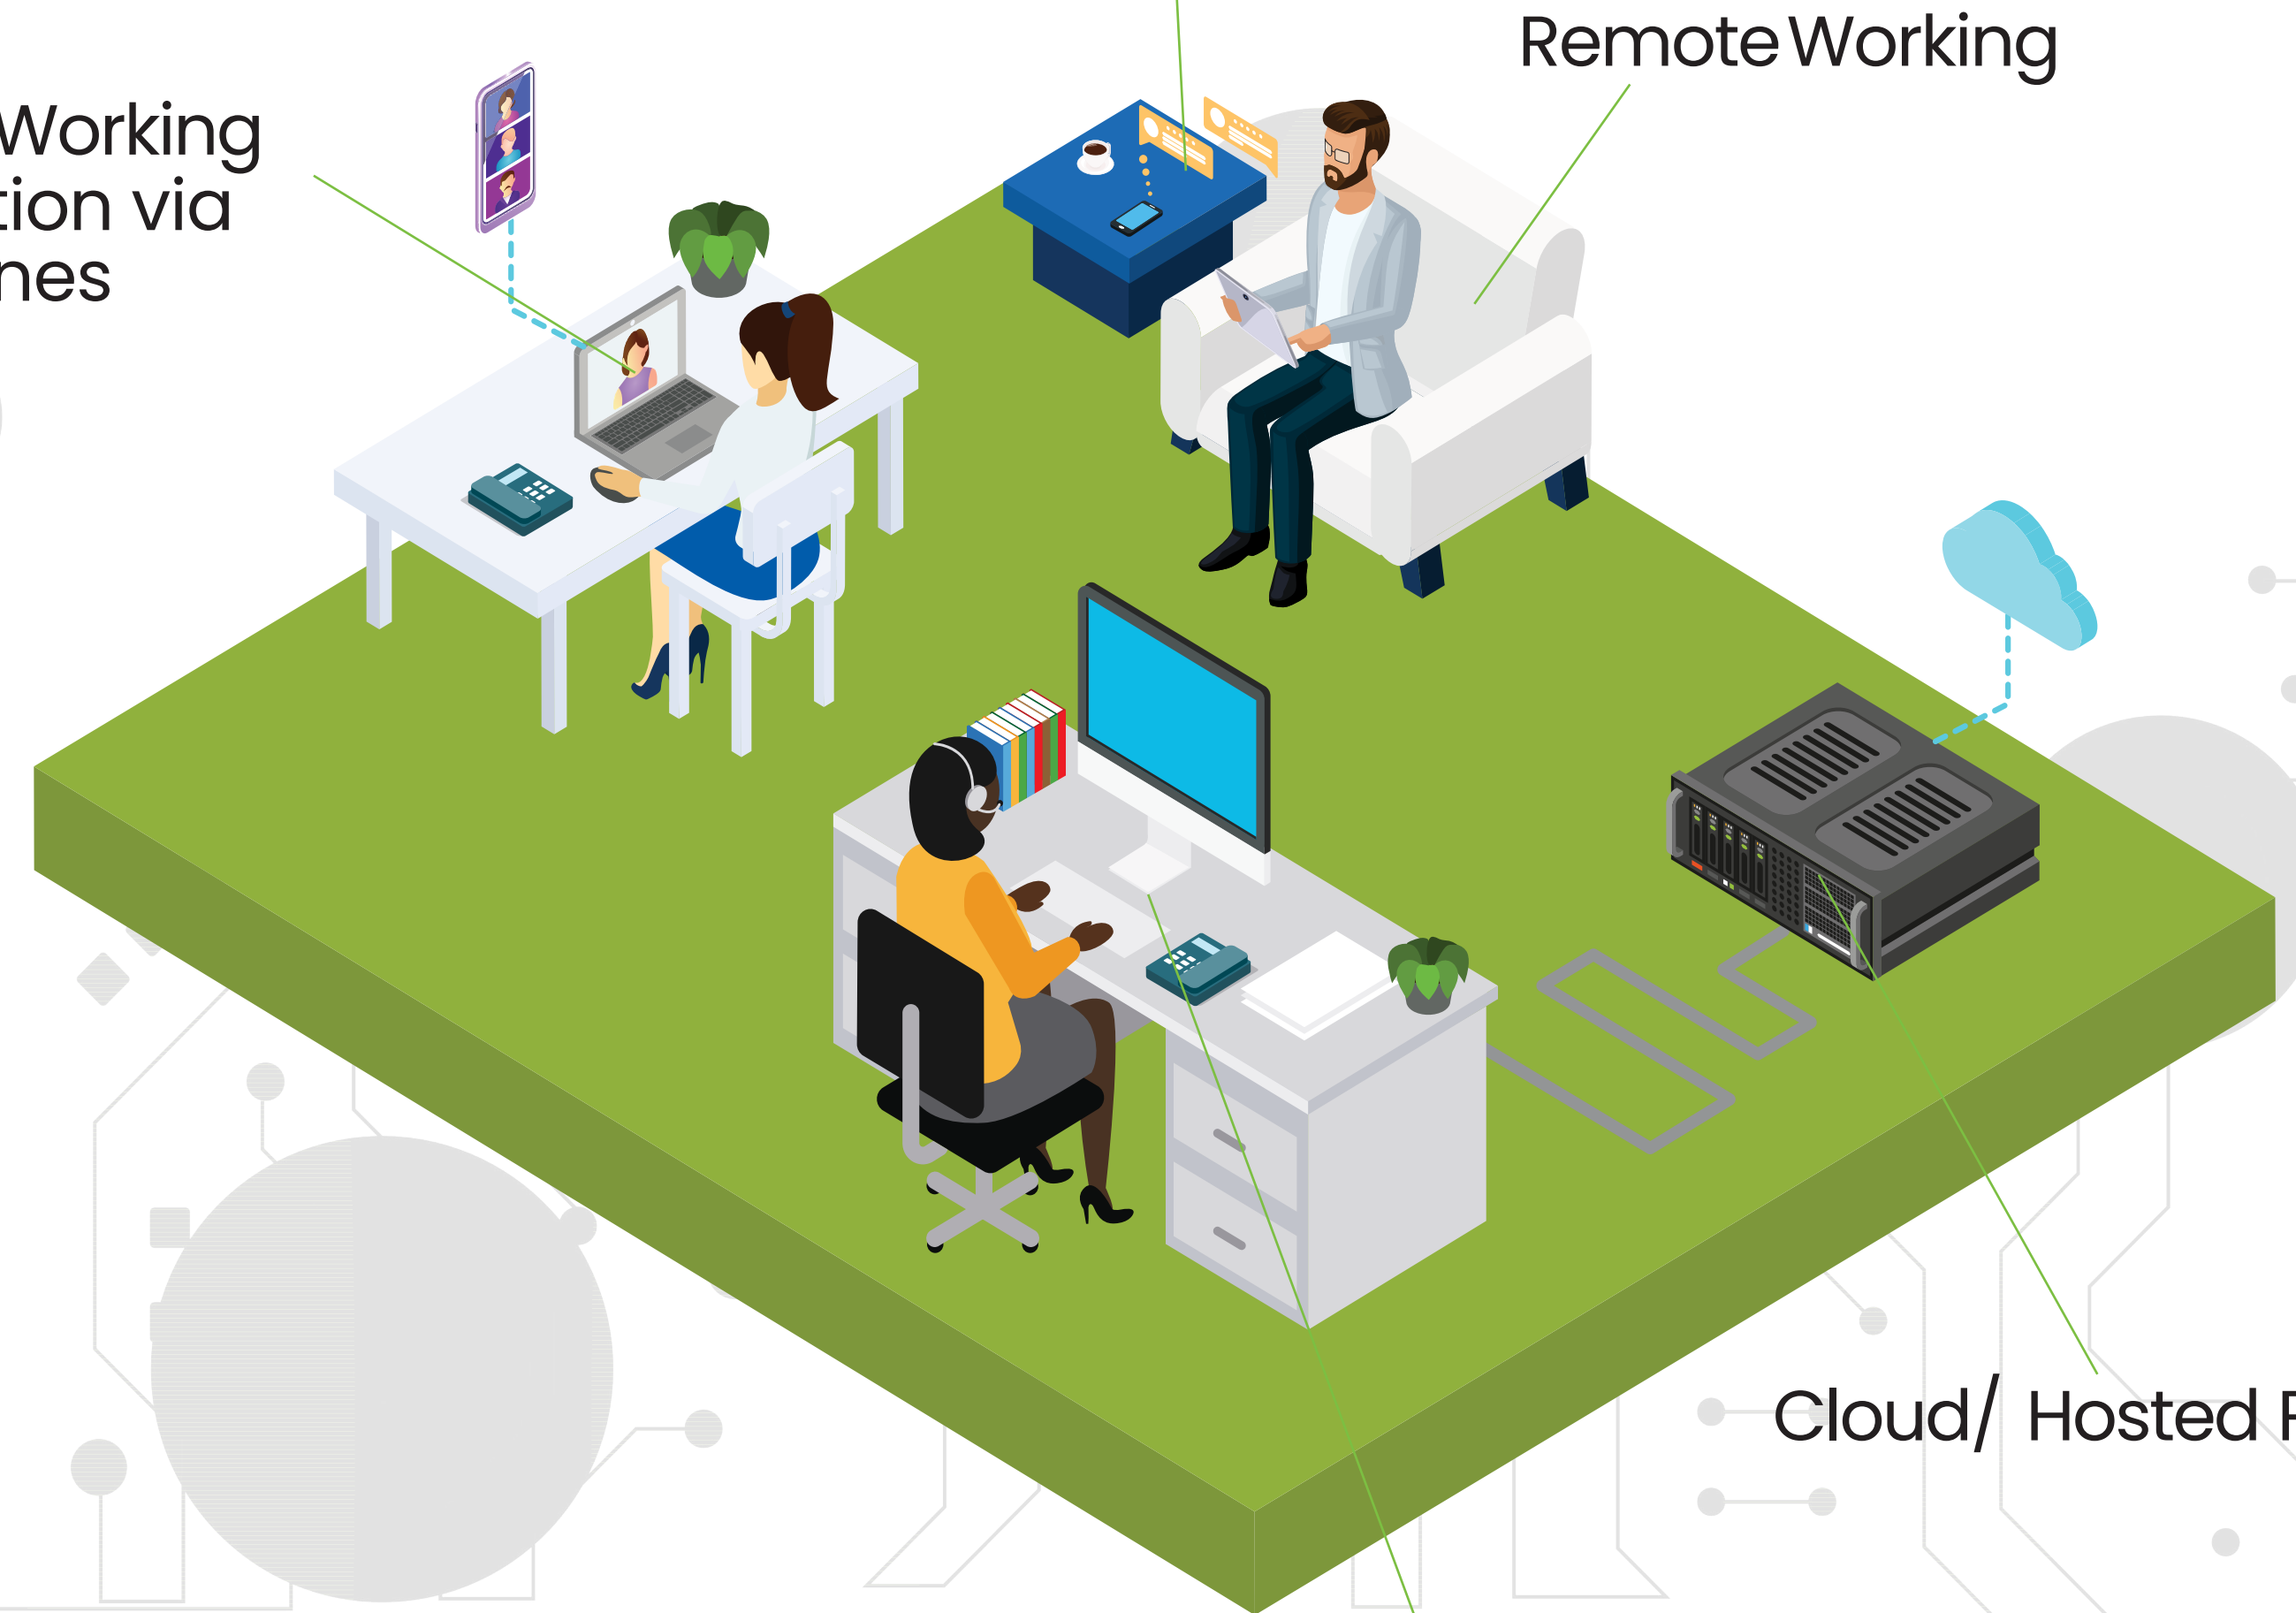

COMMUNICATION

Octopi Smart Solutions provides a comprehensive selection of voice solutions that may be customised to your company's particular requirements. To enable your organization to function and work on the go, we provide managed, hosted, hybrid, and onsite solutions. Our solutions provide your company with access to contact centres as well as enterprise, corporate, SME multi-site, and international communications.

OFFICE AUTOMATION

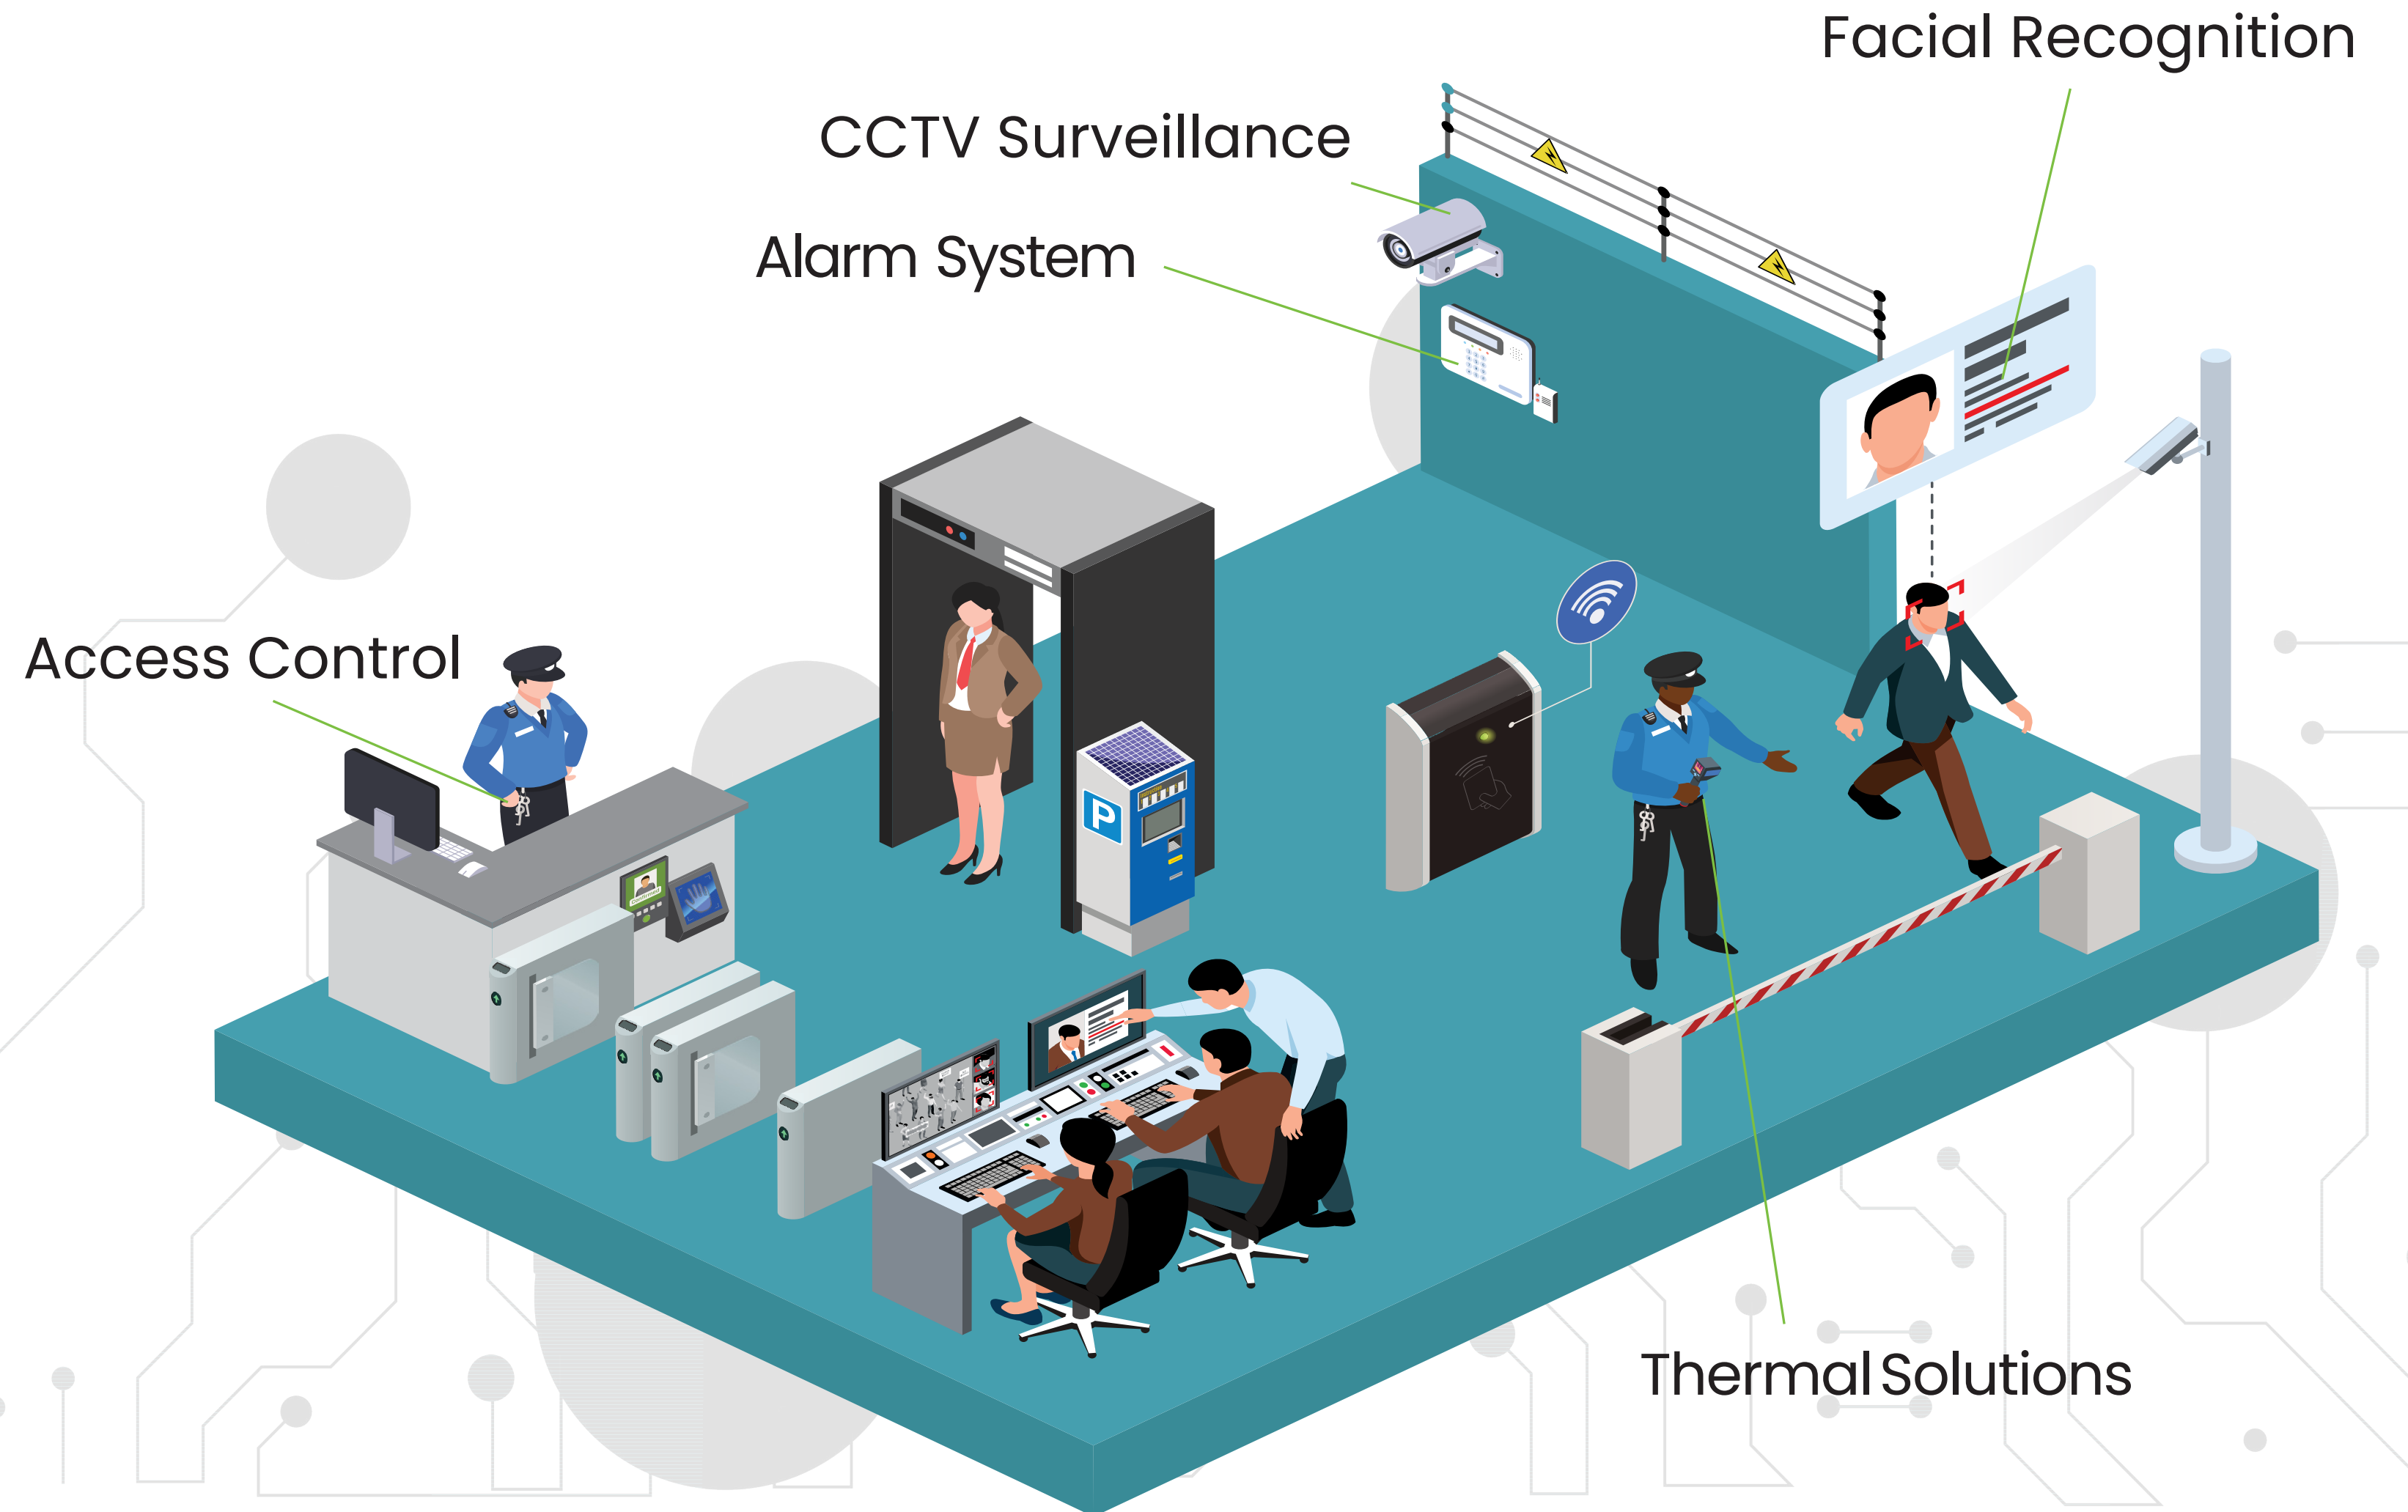

Although we live in a digital world, paper-based processes are still utilised within a modern-day business. Octopi Smart Solutions' Office Automation services revolve around assessing and delivering a tailored office printing solution for your business. This process involves hardware consolidation and upgrades to meet your business needs and ensure that printing processes are streamlined accordingly.

SECURITY

Octopi Smart Solutions' Security solutions offer an all-inclusive range of services for your business – ensuring that access to your premises and organisation's information can be monitored and managed accordingly. Our Security solutions give you the means to protect your property, employees, and assets from any outside threats by installing and implementing various security measures throughout your organisation.

FINANCE

Octopi Smart Solutions provides tailored financing options to help your company grow, maintain, and improve its competitive edge. We can tailor a finance plan to your exact needs, avoiding the crippling effects of large financial investments.
